InformaCast®

ENHANCE SAFETY WITH CISCO AND SINGLEWIRE

WHAT IS INFORMACAST?

InformaCast is a mass notification and incident management platform that fully integrates with Cisco solutions to address your daily and emergency communication needs.

Detect Threats
with Cisco Meraki sensors and one-touch alerting.

Notify Everyone
With text, audio and visuals delivered to Cisco phones.

Manage Incidents
with Webex for real-time insights and virtual collaboration.

Cisco Desk Phone 9800 Series Compatibility

Use the 9800 series "action button" to initiate scenarios for emergency management:

- Dedicated, one-touch button to request assistance during an emergency
- Launch text, audio and visual notifications to other 9800 phones and connected devices
- Use as a silent panic button to support Alyssa's Law requirements in K12
- Send "Code Blue" pages from hospital rooms
- Request emergency assistance need in retail
- Alert others about equipment failures in manufacturing
- Request help for a personal health emergency
