

INFORMACAST FOR HIGHER EDUCATION

A college or university can be a vulnerable environment. With multiple buildings and open public access, it's important to have a system in place that can reach everyone quickly during an emergency. Most campuses have a system that relies primarily on SMS text messaging to reach students, staff and faculty. This is one necessary component, but SMS messaging alone is insufficient because it lacks the speed and the coverage that are key to keeping everyone safe.

SECURE YOUR CAMPUS

Initiate lockdowns during emergency scenarios.

PROTECT PEOPLE

Receive immediate notifications when 911 is dialed.

NOTIFY EVERYONE

Include students, faculty and staff in notification distribution lists.

REDUCE RISK

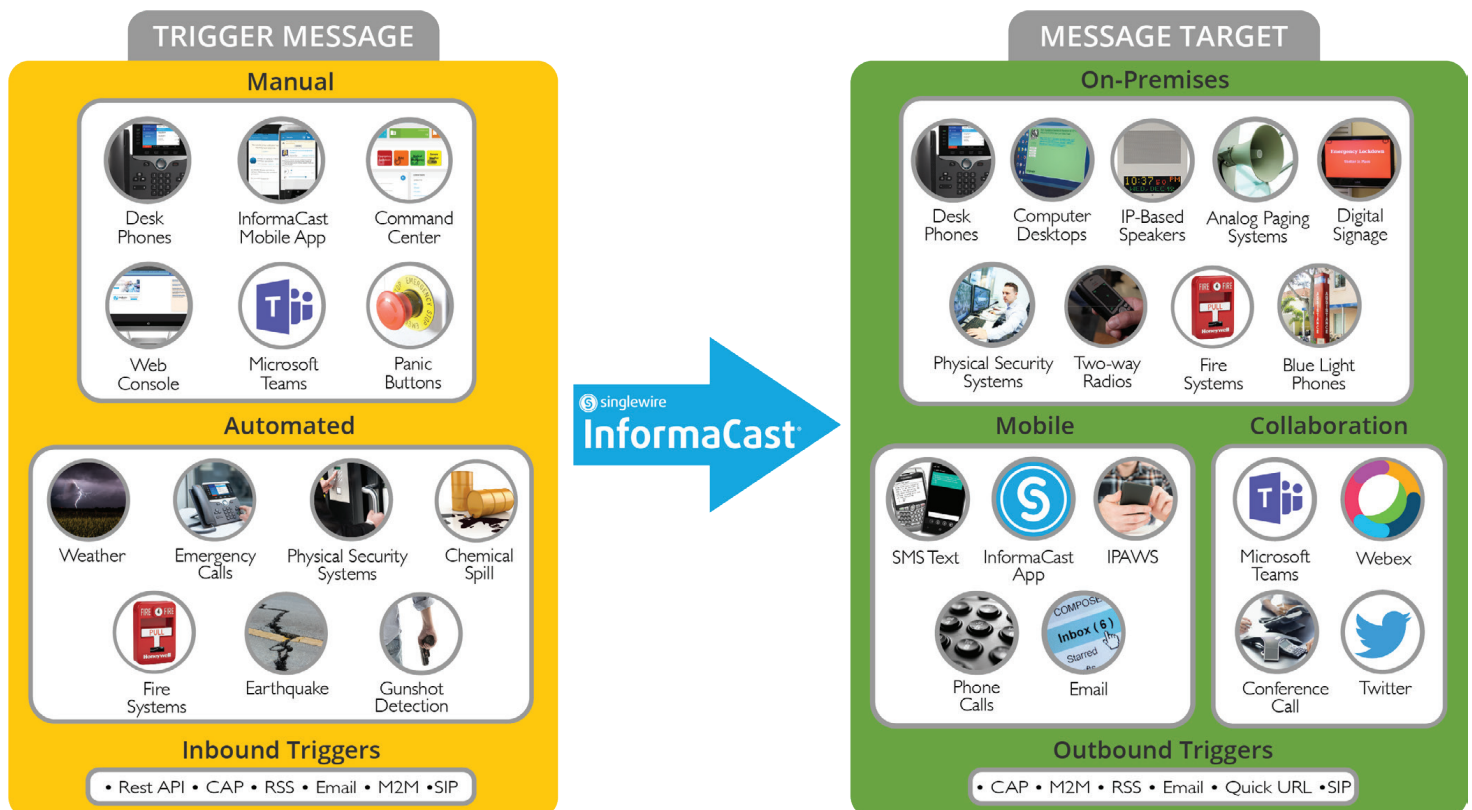

Develop a standardized procedure for alerting and responding to emergencies.

USE CASES

InformaCast is built to make message delivery easy and quick in any situation. The system can be deployed in a variety of scenarios for:

LOCKDOWN SEVERE WEATHER INTRUDER ON CAMPUS HAZARDOUS MATERIAL SPILL

InformaCast Advanced

Send notifications to on-premises devices throughout your building or campus.

InformaCast Mobile

Use a mobile app or web console to distribute notifications to mobile devices that reach people away from their desks or outside the building.

InformaCast Fusion

Provide the most complete coverage with notifications that reach people on-premises and on mobile devices.

FEATURES

911 CALL MONITORING

If an emergency is happening on campus, you need to know about it. With 911 call monitoring and recording, whenever 911 is dialed from a campus device, an alert will be sent to designated personnel. The call can also be recorded to provide additional context for what type of situation is taking place.

WEATHER ALERTS

Sync InformaCast with the National Weather Service to automatically distribute alerts when severe weather is approaching.

EASY USER MANAGEMENT

Automate user management by tying into your company's directory. Give users the ability to self register with a short URL or QR code and subscribe to distribution lists.

CALL-FOR-HELP NOTIFICATION

Know when an emergency phone, pole or button is activated on campus.

VERSATILE MESSAGING

Send audio, text and video notifications to phones, speakers, computers and other devices.

DESIGNATED GROUPS

Choose exactly who receives notifications with designated groups that can be as exact as a single person, reach a specific department, or even the entire campus community.

InformaCast

Our team is always eager to help organizations with their mass notification needs. Reach out to us to have your questions answered.
