Make the Switch to InformaCast Reach

As an InformaCast Advanced customer, you've been able to leverage industry-leading paging and on-site notification capabilities to share vital information at a moment's notice. But as needs and technologies evolve, you have the opportunity to do more by moving to InformaCast Reach. This critical communication platform is the next evolution of InformaCast, offering on-site and mobile notification in a single, hybrid cloud solution, offering more ways to reach people so they can take action quickly when it matters most.

What Do You Get With Reach?

SYSTEM HEALTH ALARMS

Know when devices go offline with a powerful dashboard to proactively troubleshoot and resolve potential issues.

MORE PHONE OPTIONS

Leverage UCaaS providers like Webex Calling, Zoom, MS Teams, RingCentral, and more.

ADDITIONAL PANIC BUTTONS

Use desk phones, mounted devices, and the InformaCast mobile and desktop app to request help and alert others.

ENHANCED INTERFACE

A modern design that's easy to navigate, so you can quickly manage and launch notifications that reach everyone.

MODERN ARCHITECTURE

Survivable Remote Site Notification, High Availability, Distributed Activation, and Failover ensure notifications get delivered no matter what.

MOBILE NOTIFICATIONS

Add text, email, and push notifications, and integrate with collaboration tools.

EASY, REGULAR UPDATES

New features, quality of life updates, and usability enhancements are delivered every six weeks to meet evolving needs.

FOUNDATION FOR MORE

Be set up to incident management, wearable panic buttons, and visitor management with InformaCast Respond, InformaCast Alert, and Visitor Aware.

We're dedicated to ensuring a smooth transition from InformaCast Advanced to InformCast Reach. Contact your account manager to schedule a demo and learn more.
