

InformaCast®

MASS NOTIFICATION FOR SEVERE WEATHER

DEPLOY AUTOMATED ALERTS

Configure alerts to know the moment severe weather approaches your area.

REACH EVERYONE

Utilize intrusive text and audio delivered to every communication channel available so no one misses a message.

MANAGE INCIDENTS

Leverage a complete toolset to enhance your emergency response with real-time insights, safety resources, and reporting.

InformaCast is a mass notification and critical event system that excels can connect to the National Weather Service CAP feed to monitor and send automated alerts about approaching severe weather. With the ability to deliver text, audio and visual to on-site and mobile devices, InformaCast delivers the speed and reach organizations need to keep people safe and informed, and minimize operational disruptions.

Industry-Leading, Award-Winning Mass Notification Solution For Over Two Decades

Solutions

NATURAL DISASTER ALERTS

Monitor live feeds from the National Weather Service and automatically trigger an emergency notification for a wide range of natural disasters that may impact your organization, including:

- Tornadoes
- Thunderstorms
- Blizzards
- Hurricanes
- Extreme Temperatures
- Floods
- Wildfires
- Earthquakes
- Volcanoes
- and more!

IPAWS INTEGRATION

FEMA approved organizations can integrate with IPAWS to extend the reach of their emergency messages beyond users signed up with their mass notification system.

911 ALERTING

Notify administrators when 911 is dialed and listen to near real-time recordings to understand the context of the situation unfolding.

IOT INTEGRATIONS

Trigger mass notifications to and from other physical systems to monitor for flood damage, burst pipes, other issues that may impact your facilities and operations.

PAGING AND INTERCOM

Utilize live audio paging, ad hoc audio, two-way handsfree intercom and push-to-talk functionalities with desk phones, IP speakers, and existing analog overhead systems.

SCHEDULE CHANGES

Notify people of schedule changes due to severe weather and adjust scheduled messages easily.
