

InformaCast®

PERSONAL DURESS PACKAGE

STAFF PROTECTION

Leverage the mobile panic button and wearable devices so staff can request assistance the moment they're in trouble.

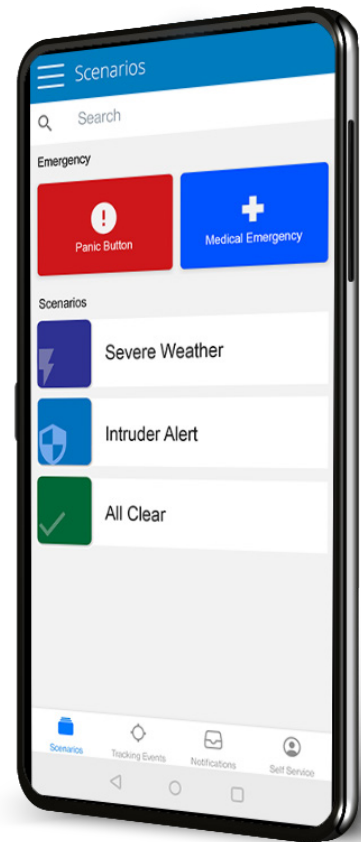

FLEXIBLE USE CASES

Provide help for teachers in classrooms, nurses in hospitals, and lone workers in manufacturing with the push of a button.

ECOSYSTEM INTEGRATION

Integrate with existing phones, IP speakers, digital signage and desktop computers to receive alerts when buttons are activated.

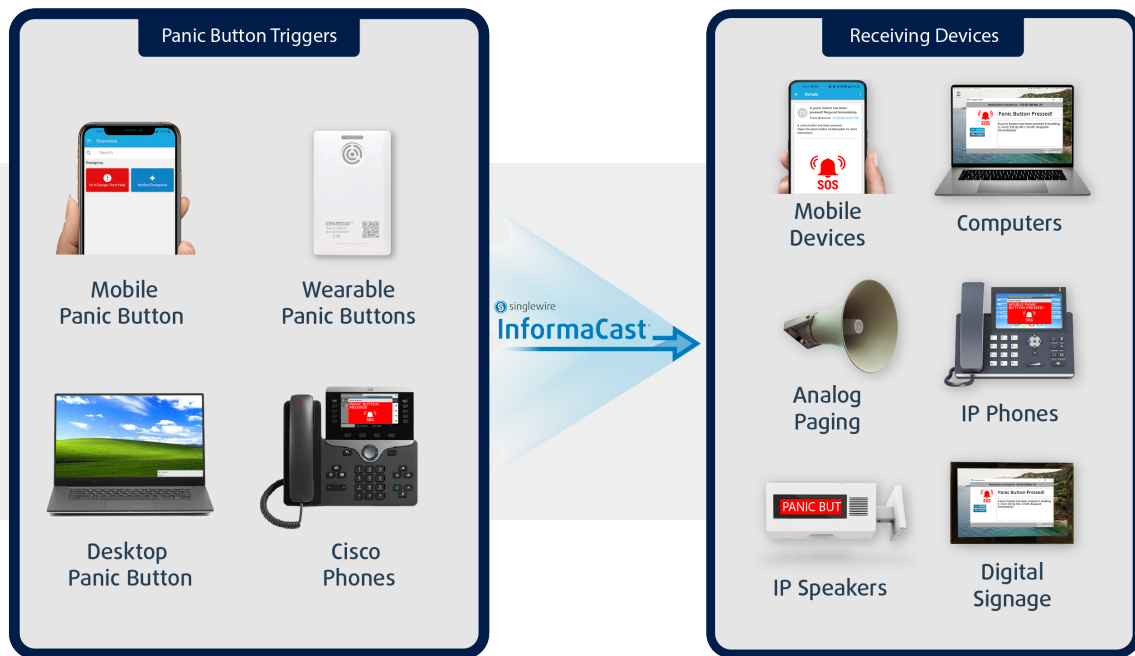

The InformaCast Personal Duress Package expands on the mass notification capabilities of InformaCast to provide staff in education, healthcare and manufacturing with a 1:1 means of requesting help via a mobile panic button or wearable badge. This solution works to directly connect people who may be in danger with the people who can provide assistance and keep them out of harm's way.

Industry-Leading, Award-Winning Mass Notification Solution For Over Two Decades

Alerts That Reach Everyone

Contact our sales team at sales@singlewire.com or 608-661-1140, to discuss the benefits of the InformaCast Personal Duress Package.
