InformaCast®

Reach Everyone. Respond Faster.

When every moment matters, organizations need the tools to share information and quickly resolve incidents. InformaCast from Singlewire Software offers two solutions organizations can use to deliver critical messages that reach everyone and respond quickly and effectively when emergencies occur. With InformaCast Reach combined with InformaCast Respond, organizations can alert instantly, reach everyone and respond faster to daily issues and major emergencies.
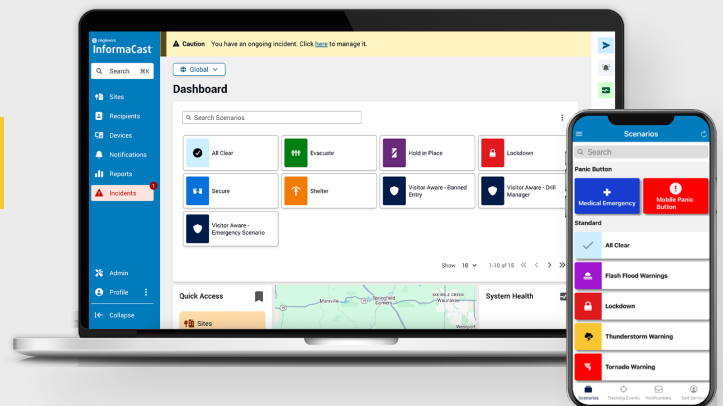

InformaCast Reach

Deliver daily and critical communications as audio, text, and visual alerts to your InformaCast-connected devices so no one misses a message.

InformaCast Respond

Leverage a complete incident management toolset to coordinate an effective response that minimizes risk and allows normal operations to resume quickly.

InformaCast Reach ✚ InformaCast Respond

MULTIPLE ALERTING METHODS
Automated and manual alerting initiated by panic buttons or monitored CAP and RSS feeds.

INTRUSIVE NOTIFICATIONS
Deliver attention-grabbing text, audio, and visual alerts to all connected devices.

EXTENSIVE INTEGRATIONS
Leverage 80+ technology integration partners to connect speakers, panic buttons, digital signage, access control, phones and more.

DAILY & EMERGENCY USES
Use InformaCast to communicate everyday messages and share critical information about active shooters, lockdowns, and more.

INCIDENT MANAGEMENT
Effectively manage critical incidents and speed up response times with real-time insights.

COORDINATED RESPONSE
Leverage confirmation responses, conference calling, and collaboration tools to share information.
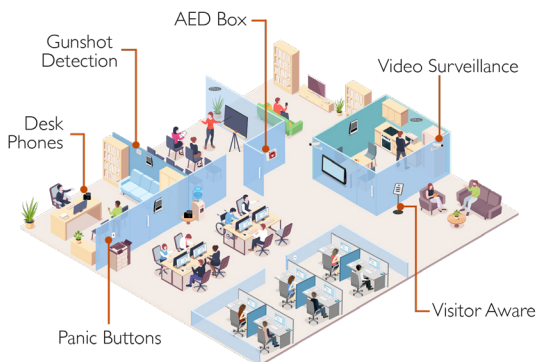

LOCATION MAPPING
Upload floor plans and place devices on maps to understand where incidents occur and better direct assistance.
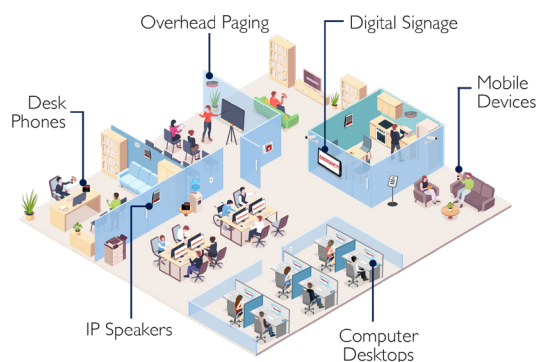

VIDEO SURVEILLANCE
View camera feeds directly from maps within InformaCast to gain critical context into unfolding situations.
