InformaCast®

Wearable Alert Badge

Schools need to know the moment issues arise, because every moment wasted can put students and teachers at risk. The InformaCast Wearable Alert Badge offers personalized protection for school staff with the ability to provide critical communications to internal safety teams and local dispatchers. It swiftly and effectively manages incidents to deliver assistance as quickly as possible.

Alert

Provide personalized protection with a wearable alert badge that sends instant alerts with floor- and room-level accurate location information.

Reach

Deliver critical communications as audio, text, and visual alerts to your InformaCast-connected devices so no one misses a message.

Respond

Manage incidents and respond effectively with location mapping, camera integration, and 911 emergency calling.

Safety & Alerting Solutions

WEARABLE BADGE

Provide teachers with a discreet, easy-to-use device to request help during a crisis

ALYSSA'S LAW COMPLIANCE

Meet the requirements of Alyssa's Law with silent alerts delivered directly to first responders.

LOCATION PRECISION

BLE + LoRaWAN provides room-level and floor-level accuracy to track staff after they press their button.

ADMIN DASHBOARD

Monitor device health, battery life, badge history, and infrastructure in real-time.

INFORMACAST INTEGRATION

Inform everyone instantly with text, audio, and visual alerts sent to InformaCast-connected devices.

TWO-TIER ALERTING

Distinguish between daily issues and major emergencies with two-button press options.

INCIDENT MANAGEMENT

View camera feeds, track staff locations on a map, and leverage 911 alerting for a swift, effective response.

ADDITIONAL PANIC BUTTONS

Schools can leverage mounted and virtual buttons, a mobile app, and keyboard shortcuts.

Visit www.singlewire.com/alert to learn about how deploying the InformaCast Wearable Alert Badge can enhance safety at your school.
