

# Safety & Communication Solutions for Schools & Districts

For more than a decade, schools and districts across the country have trusted Singlewire Software to deliver solutions that help create safer learning environments with the ability to alert instantly, reach everyone, and respond faster when issues arise. With software for visitor screening, critical communications, incident management, and daily school operations, along with wearable panic button hardware, Singlewire offers a complete set of solutions that delivers the information you need when it matters most.

## InformaCast®

Software for daily operations, critical communications and incident management with wearable panic button hardware.

## Visitor Aware®

Software for visitor screening, digital hall passes, school dismissal management, safety drills, and bus management.

# InformaCast Offerings

## REACH

InformaCast Reach is a critical communication platform that includes:

- Live and recorded audio paging
- Scheduled bells and messages
- Sending notifications from:
  - Mounted panic buttons, desk phones, InformaCast app, and the web interface
  - Automated methods (CAP, RSS, etc.)
- Delivering notification as audio, text, and visuals to:
  - Desk phones, speakers, collaboration tools, mobile devices, signage, desktops, and strobes

## +

## RESPOND

Add InformaCast Respond to InformaCast Reach for incident management capabilities that include:

- Real-time reporting and insights
- Confirmation response and tracking
- Conference calling
- Rostering and reunification
- Integration to view live camera feeds
- The ability to upload maps for a coordinated response
- 911 alerting to directly notify local dispatchers

## +

## ALERT

Add a wearable panic button solution to InformaCast Reach and Respond to leverage:

- InformaCast Wearable Alert Badges for personalized staff protection
- BLE beacons for room- and floor-level location accuracy on maps
- LoRaWan gateways to deliver alerts from badges to InformaCast
- Multiple button presses to reduce false alarms and distinguish between minor and major events
- 1 year battery life on badges with easy recharging

# Visitor Aware Offerings

## VISITOR MANAGER

- Screen visitors and volunteers before granting them access
- Maintain digital records of visitors and volunteers
- Print badges to identify guests

## HALL MANAGER

- Digitally permit students to be excused from class
- Create restrictions around granting student passes
- Maintain digital student hallway activity log

## DISMISSAL MANAGER

- Monitor and track student dismissal types
- Streamline the carpool line pickup process
- License Plate Recognition integration

## BUS MANAGER

- Verify students get on the correct bus
- Share student bus location insights with guardians
- Know when students have gotten off the bus

## SAFETY MANAGER

- Schedule and assign drills across your district
- Submit tips about potential school threats
- Easily reunite students with guardians following an incident

## INTEGRATE INFORMACAST

- Add critical communication and incident management
- Auto-enroll guests to receive notifications
- Initiate alerts when flagged visitors attempt entry
