# STUDENT SAFETY SOLUTIONS

Running a school and keeping those inside it safe is no easy task. Whether it's knowing who's coming through the front door, understanding where every student is, running mandated safety drills, or making sure every student gets home safely, student safety has to be a top priority. Visitor Aware offers a suite of tools schools can use to identify potential threats, account for students, schedule drills, and help students get home safely at the end of the day.

# DISCOVER THE VISITOR AWARE DIFFERENCE

Not all student safety solutions are created equal. See what sets Visitor Aware apart:

- ✓ **Encrypted facial recognition** results in fewer false positives

- ✓ **No proprietary hardware,** which means you save money by using tools you already own

- ✓ **District-wide communication,** so parents and guardians don't need to be checked multiple times on the same day

- ✓ **QR codes** help identify and verify visitors with ease

- ✓ **Pre-registration links** save time and hassle

- ✓ **Drill scheduling** helps document and carry out required safety activities

- ✓ **Real-time bus insights** provide student location information
